January 2026 branch tip

TWO IMPORTS WITH THE SAME IMMEDIATE GIT PARENT

Clean encoding import

Sreejan Kumar · encoding_model_slurm/
Full preprocessing, base alignment,
encoding and decoding; SLURM launchers

23 MAR 2026 · 26fa74c

Reproduction research branch

Later July–August edits
Encoder diagnostics and geometry work
encoding_model-reproduction_temporal

A SEPARATE DESCENDANT OF THE CLEAN IMPORT

AWS branch continued

botcs
Additional extraction and
RSA maintenance

11 DEC 2025 · d8eaa5a

Submitted main

botcs · encoding_model_code/
Five-file supplementary snapshot
Tag: encoding-suppmat-v1.0

31 JUL 2026 · 62c2021

What the content comparison shows

March / July preprocessing: identical.
Alignment and encoder files: different.
July aligner adds LLMs to an existing base;
March aligner also builds that base.

NO GIT MERGE CONNECTS THE TWO IMPORTS

Commit dates show recorded imports.
The project owner reports recruitment
in November 2025; the first committed
encoding import is 17 December.
